AUTOMATED RECONCILIATION

Ensure Financial Integrity

Say goodbye to the timeous and error-prone process of manually reconciling transactions. Our automated reconciliation process is completed at the end of every day and spans all payment and VAS providers.

The results of the analysis are available on the reconciliation dashboard on our merchant portal. This sophisticated process meticulously compares and interrogates transactions from the point-of-sale against those recognised by your acquiring bank, delivering clear results.

- ✓ Save time & effort
- ✓ Ensure accuracy
- ✓ Allow for scalability
- ✓ Ensure timeliness
- ✓ Enhance efficiency

The dashboard displays transactional results according to the main categories below:

Expected Bank Amount	Matched	Not Equal Exceptions	Client Only Exceptions	Provider Only Exceptions
The total amount the client can expect to receive in their account.	<ul style="list-style-type: none"> ✓ Found in client & provider file ✓ Equal transaction values 	<ul style="list-style-type: none"> ✓ Found in client & provider file ✗ Unequal transaction values 	<ul style="list-style-type: none"> ✓ Found in client file ✗ Not found in provider file 	<ul style="list-style-type: none"> ✓ Found in provider file ✗ Not found in client file

Client file: Transactions received in a file from the store's point of sale
Provider file: Transactions received in a file from the bank
Exceptions: Any transaction that is not equal and matched between the store and bank. These need to be reconciled.
