PLEASE NOTE

TJ supports all banks, but Famous Brands requires specific providers for this solution to secure competitive rates and dedicated service delivery. Nedbank is Famous Brands' chosen acquiring partner.

Signing up does not require changing your business bank—settlements can be made to your existing account.

ABOUT US

TJ is the foremost bank-independent Payment Services Provider (PSP) in Southern Africa and collectively we process over 3 Billion transactions per annum.

We provide innovative transactional services that cater for every possible customer touch point, and enable a rapidly growing ecosystem for our merchants, whilst ensuring that payments are delivered securely and timeously. Our solutions provide retailers with the flexibility they need when it comes to choosing the financial services provider, digital product ranges and end-user devices they require.

OUR PURPOSE

Creating and delivering smart transaction solutions and services to enrich our clients' experience.

POS PROVIDERS

Key Benefits

We deliver digital payment solutions to suit businesses' needs across diverse industries while ensuring market-leading regulatory compliance.

SIMPLIFY COMPLEX SYSTEMS

One platform that addresses all physical and digital payment needs creating hyper-efficiency and operational cost-saving.

CREATE SEAMLESS EXPERIENCES

Our payment solutions eliminate friction, supporting a seamless and enjoyable checkout experience.

ENJOY PEACE OF MIND

Our platform stability and security are industry-leading. This allows our customers to focus on running their business, knowing that their payments are in safe hands.

EARN ADDITIONAL REVENUE

We enable a revenue-positive ecosystem, enabling our customers to sell VAS, utilise revenue-generating payment and loyalty partners, and even sell marketing real-estate on Android card machines.

EXPAND YOUR BUSINESS

Utilise the latest FinTech products and enable an expansive ecosystem of payment and VAS providers to grow your business.

ENSURE FINANCIAL ACCURACY

Access real-time omnichannel transaction data and ensure accuracy through automated reconciliation.
